

MAINE RESIDENTIAL LAMP RECYCLING PROGRAM RETAILER PARTICIPATION AGREEMENT

Manufacturers of household mercury-containing lamps are sponsoring a program in Maine to collect waste **compact fluorescent lamps (waste CFLs)** from residential households at participating retail stores. Under this program, the sponsoring manufacturers are covering the cost of providing retailers with waste CFL collection receptacles, transporting the waste CFLs for proper disposal, and material recycling.

To participate in the Maine mercury-containing Residential Lamp Recycling Program (the "Program"), the retailer and, where appropriate, individual retail store locations (collectively referred to herein as "Participant") must sign this Participation Agreement and return to the Program Administrator (the National Electrical Manufacturers Association) at the address on the next page.

The Participant is required to certify to the sponsoring manufacturers that collection location(s) meet the following criteria:

- Accepts waste CFLs from household residents of Maine and has a system in place that segregates (a) other types of household lamps, (b) those lamps obtained from sources other than households, and (c) all other waste materials from waste CFLs ("ineligible waste"). Costs incurred at the Participant's location for accepting and storing waste lamps returned are not eligible for reimbursement under this Program, nor are the sponsoring manufacturers responsible for ineligible waste.
- Utilizes staff trained in the proper handling and storage of universal waste and emergency procedures in the event of a spill for tasks of accepting and processing waste CFLs through this program.
- Complies with all applicable requirements of Maine's universal waste law and regulations, including maintaining documentation of the training in accordance with state and/or federal universal waste rule.
- Maintains a permanent storage facility for waste CFLs that is secure, weather tight and complies with all additional local, state, or federal regulations.
- Ensures that collection containers are located in an area inaccessible to the general public and ensures that all mercury-containing household waste CFLs will be accepted by staff to avoid improper handling and packaging for shipment.
- Takes reasonable steps to guard against incidental breakage of waste CFLs.

In consideration of the sponsoring manufacturers providing the financial support for this Program and other good and valuable consideration, Participant agrees to indemnify, hold harmless, and defend the sponsoring manufacturers of household mercury-containing lamps supporting this Program and the Program Administrator, their respective directors, officers, employees, representatives, successors and assigns, jointly and severally, from any demand, claim, liability, action, cause of action, lawsuit, loss, damage, injury, penalty, fine, expense, cost, injunction, settlement or judgment of any kind or nature ("liabilities"), whether such liabilities are contingent or mature, whether such liabilities are premised on a violation, breach, or failure to comply with any statute, ordinance, administrative regulation, or under theory of common law, at law or equity, asserted by any person, corporation or other entity, including any governmental entity, arising out of or connected with the Participant's failure to comply with the criteria set forth above, or the errors or omissions, whether accidental or intentional, of the Participant, its employees, agents, or representatives prior to or while transferring the waste CFLs for management and recycling under the Program, whether or not such liabilities occur or arise at the Participant's premises. Additionally, the Participant agrees to the terms and conditions of Veolia ES in connection with using Veolia's RecyclePak[®] containers under this Program (a copy of which is provided herewith).

By its signature below, the Participant agrees to the foregoing criteria and terms.

Name of Retail Participant

Authorized Signature (Store Manager)

Name (Please print)

Date

MAINE RESIDENTIAL LAMP RECYCLING PROGRAM RETAILER PARTICIPATION AGREEMENT

Please complete this Participation Agreement to enroll in residential mercury-containing lamp recycling collection Program. Upon receipt of a completed and signed form, the Program Administrator will forward this information to the recycling vendor, Veolia, ES. Please allow ten business days for processing. Once confirmation of enrollment has been received, orders for lamp recycling containers may then be placed directly with Veolia, ES by either calling toll-free 1-888-669-9725 or visiting <http://lamprecycle.veoliaes.com>.

Participation Agreements should be sent to the Program Administrator:

Maine Lamp Recycling Program Manager
National Electrical Manufacturers Association
1300 North 17th Street
Suite 900
Rosslyn, VA 22209
